- LynxGuide server includes 100 Client Seat Licenses
- Two-Key combination prevents false activations
 - Shift + Shift
 - Ctrl + Ctrl
 - Alt + Alt
- Supervised by server
- Operates when PC is Logged On or Off
- Sends alert instantly (No Pending)

The **LynxKeyPro** client software is a simple-to-use instant alert sending program. The LynxKeyPro client software simply needs to be loaded on any Windows-based PC (individually or using a MSI push). The pre-configured alerts will be sent by pressing any of the two-key combinations, Shift-Shift or Ctrl-Ctrl or Alt-Alt keys on the keyboard. Each two-key combination can send a different alert or send the same alert. The LynxKeyPro can send alerts that activate any of the Lynx system output devices: LynxMessenger "Pop-ups", LynxMessengerPro "Pop-ups", SMS to cell phones, pagers, and emails. Also, text to speech audio files or pre-recorded wave files, can be sent to phones, your PA system or your radio system. LynxKeyPro will work on any PC that can reach the LynxGuide server inside your network, even while the PC is Locked or Logged Off.

The standard LynxGuide Server supports up to 2000 clients and includes 100 of LynxKeyPro clients. The LynxGuidePro Server supports up to 5000 clients and also includes 100 of LynxKeyPro clients. Additional seats can be ordered in groups of 25 client seat licences.
