

# LynxGuide Server Enterprise Software 2,000 Seats

## SKU #780-LYNXE-SW-02

The LynxGuide Enterprise server software is installed on the customer supplied server or virtual machine. The 2,000 seat package includes 10 LynxMessengerPro licenses and 100 LynxKeyPro licenses. Each client software function is counted as one server seat. One computer with LynxCliet installed can use 1-5 server seats, depending on what LynxCliet functions are enabled. Any LynxNet device is counted as one server seat. LynxGuide Enterprise software licensing allows for a server to operate on any network, without geographic limitations.

## Features and Benefits

- Enterprise (Multi-site) On Prem software only with 100 Keyboard duress alarms (expandable)
- Enterprise (Multi-site) On Prem software can alert up to 2,000 computers
- Can be leveraged for duress and notification with any Lynx hardware and software at multiple sites
