

Hardwired Hold Up Button (HUB)

SKU #950-LHW-IDPNC-3

Momentary

The hold up button (HUB) momentary hardwired duress alarm has a “Normally Open” (N.O.) and “Normally Closed” (N.C.) to connect to a LynxNet input device. When activated it instantly sends a wireless alarm to the LynxNet WLS and then sends it to the LynxGuide server.

Features and Benefits

- Hard wired HUB style button can be connected to any LynxNet input device
- One set of “Normally Open” and “Normally Closed” dry contact closures
- Wire integrity to the end point of the input device can be supervised using supplied EOL resistor
